ABOUT
LEX FAMILIA INDIA

Lex Familia India is an endeavor to create a family of lawyers. Our vision is to create an alliance of senior practitioners and young legal minds. We strongly believe in "learning together and growing together".

With this idea of togetherness, we have associated with senior practitioners to share their learnings and experience with young legal minds. At LFI, we educate young lawyers in a fashion that is completely distinctive. Our primary aim is to equip budding lawyers and professionals with the necessary training equivalent to what is expected of them working in a law firm, all provided from a practical standpoint with practitioner's insight.

Breaking the stigma of approachability and the barrier between seniors and juniors, our goal is to fill the significant gap that exists between traditional learning outcome of students in college and the expectations of a law firm. Having trained quite a few associates ourselves, we understand the gap and with our sessions and mentorship programme, we tend to address the need of students and prepare them to be a law firm/corporate organization ready.

IMPORTANCE OF **WORKSHOP IN IPOs**

A focused workshop that helps students understand the full IPO lifecycle, regulatory compliance, and drafting of offer documents with hands-on practical training.

This workshop walks participants through every stage of the IPO process, from pre-filing preparations to post-listing compliance. It covers regulatory requirements under SEBI ICDR, Companies Act, and other applicable laws, helping students gain practical exposure to the drafting of offer documents and interaction with market regulators.

Leveraging our strong network of capital market practitioners and corporate lawyers, participants gain first-hand exposure to how IPOs are structured, executed, and brought to market. By the end of the course, they are equipped with the knowledge, skills, and professional approach expected from a first-year Associate in a corporate or securities law practice — even before stepping into the workplace.

And here's the best part — after this workshop, you won't just understand IPOs, you'll be ready to go public with your IPO expertise.

Exceptional and committed performers could fast-track their careers with placement opportunities at top law firms and capital market practices, thanks to LFI's powerful industry network.

KEY HIGHLIGHTS OF THE WORKSHOP

- Dive deep into the entire IPO lifecycle, from preparatory stages to listing and post-listing compliances
- Gain a strong understanding of regulatory frameworks including SEBI (ICDR) Regulations, 2018 and Companies Act, 2013, as applicable to IPOs
- Learn a practical approach to legal due diligence, mapped to each disclosure and section of the offer document
- Master the art of drafting IPO offer documents with in-depth section-wise disclosure analysis
- Explore IPO structuring strategies and key listing requirements applicable to issuers and promoters
- Understand the transaction flow and responsibilities of key intermediaries — from merchant bankers and auditors to SEBI and stock exchanges — along with insider insights on working effectively with them
